**Twelve Outside Rinks Taking Part**

Stewart, of Hanna, Wins The  
Grand Challenge

### LOCAL ITEMS

Germicidal Soap prevents infection, and protects your health. 25 cents a cake at Jacques' Drug Store.

A community sale will be held in Chinook on Saturday afternoon, March 19, at one o'clock. Anyone having articles to sell at this sale please leave a list at the Chinook Advance Office. A. Trueblood, Auctioneer.

J. Carter, who has been spending the winter in Alaska, returned to his farm in the Kimmundy district on Tuesday.

For Rent—Four roomed house with good garden. Apply at The Advance Office, Chinook.

Friends will be pleased to learn that Raymond Deman who was recently operated on for appendicitis in the Holy Cross Hospital, Calgary, is progressing very favorably.

D McKenzie was a visitor in Granum last week.

Melvine Chase, who has been spending the past two years in Alaska, arrived in town this week and is looking after his farming interests in the Kimmundy district.

L. D. Butts and daughter, Agnes returned on Tuesday from Minneapolis, Minn., where they have been visiting relatives.

A. McAllister is a visitor in Calgary this week.

**Chinook Curlers Again Win  
First Prize at Hanna  
Bonspiel**

The Chinook curlers are certainly going after the jewelry at the bonspiels this year. Dawson's rink at Hanna bonspiel last week won the Merchant's Event, and came home with the lovely Hudson Bay blankets as a first prize. The Chinook boys met Stewart's rink of Hanna, in the final and won out easily by 13-4 only having to play ten ends. The following is the personnel of the rink: L. S. Dawson, (skip) W. Milligan, R. Morrison, O. L. Mielke.

This is the third rink this year that has won a first prize at the bonspiels, not to say anything about the two rinks bringing back third prizes from Kindersley, and one rink a fourth prize at Youngstown.

#### Bonus to Beet Growers

An additional bonus of 50 cents a ton has been made payable to sugar beet growers in southern Alberta, by the Raymond sugar factory. This brings the net price to growers up to \$6.75 a ton.

With twenty-one rinks competing, twelve of them from outside points, the tenth annual bonspiel of the Chinook Curling Club, got underway early Monday morning. Weather conditions throughout the bonspiel were ideal for curling and the ice was kept consequently some real exhibition games were witnessed by the spectators several thirteen and games having to be played to decide the winners. It is many years since Chinook has had such splendid ice for curling during the bonspiel. The weather man this year has certainly favored Chinook's spiel.

The visiting skips are: Dr. Rose of Kindersley; P. Zehren, J. McLeod, L. Courtwright, Geo. Harper and W. Harding, of Youngstown; G. Stewart, Hanna; B. H. Dial, A. Gibson, H. Barbour and M. Whitlock, of Oyen; C. A. Bishop, of Excel.

The final game in the Grand Challenge was played off last night when the first prize went to Stewart of Hanna. Milligan won second, J. S. Smith third, and Chapman fourth.

Two of the Oyen rinks, Gibson and Barbour were in the finals of the Merchants Event. These two rinks rather than stay over for another whole day have decided to play against each other in their home town to determine the winner. The third and fourth prizes in this competition will go to Whitlock, of Oyen, and Stewart, of Hanna.

The following are the prize winners in the Consolation: 1st, Harper; 2nd, Rose; 3rd, Rennie; 4th, Elliott.

#### Visiting Rinks

HANNA—G. Stewart, L. Jones, G. Yavis, N. Knott.

KINDERSELEY—Dr. Rose, P. Dixon, M. Cormick, S. Y. Hoffman.

YOUNGSTOWN—P. Zehren, E. McGill, A. Watson, John Cope. J. McLeod, A. McLean, P. Sterling, C. Sterling, F. Schofield, L. Courtwright, V. Brown, L. Shaw, G. Harper, R. Wells, D. McIntosh, J. Swanson, W. Harding, R. S. Luckham, B. Sellers, W. Isbister (Chinook).

OYEN—B. H. Dial, T. Stephenson, E. Gullekson, F. Thayer, A. Gibson, A. Wade, C. Riddell, V. Cuddale, B. Barber, D. May, Dr. Kerr, G. Langmuire, M. Whitlock, E. Thygeson, A. Carr, Arthur Johnson.

EXCEL—C. A., F. E., R. E., and H. L. Bishop, four brothers.

#### Local Rinks

# Some Encouraging Signs Show Better Planning of Towns is Now Taking Hold in Canada

Town planning is making slow but certain progress in Canada, according to the report of the committee on town planning of the Dominion Land Surveyors' Association, compiled by D. H. Bartley, D.L.S.

The committee finds, in reviewing the progress of the year in this world-wide movement, that there are some encouraging signs that better planning of towns and cities is catching on in the Dominion. From east to west it is found that in the larger cities there is an awakening consciousness as to the benefits to be derived. In Montreal the movement is voluntary, an organization having been formed for the development of a plan which can hardly fail to result in the operation of an official city plan sponsored and financed by the city.

In Vancouver action followed the passing of a provincial Town Planning Act. The city promptly appointed a town planning commission and consultant and staff to create a comprehensive plan for the city and environs at a cost of \$10,000, spread over three years. Surrounding municipalities probably will agree on a regional plan.

Industrial companies who are establishing great enterprises in Canada are keenly alive to the advantages of correct planning of their town sites. Mr. Bartley reported, for instance, at Arvida, Que., the Aluminum Company of Canada is laying out the nucleus of a city for its employees on former far lands comprising some 600 acres. They are proceeding on carefully prepared plans designed for an ultimate population of 10,000. Construction of 270 houses was included in last year's program, and plans include development of roads, sanitary and fire protection and landscape treatment.

In Western Canada the town planning movement is gathering momentum. Certain of the municipalities around Winnipeg are taking steps toward the formation of town plans under Manitoba laws, and the City of Edmonton has announced its intention of proceeding similarly. Kitchener, Victoria and Ottawa are other Canadian cities in which definite progress has been made.

The report concludes: "It is suggested that the dominant course for the rapid advancement of town planning in Canada is a matter of education and persuasion and that the necessary elements will inevitably follow. If in the development of our young Canadian cities the residents are, by wise planning, avoid the creation of slums and tenement districts, we will be in a far more advanced position than could be secured by any frantic efforts in the future to develop lavish city monuments in an attempt to conceal the squalor of the neglected districts."

## The Village Blacksmith

Business Was Never Better In This Trade Than It Is Today

Those who lament the passing of the village blacksmith with his muscled arms and rusted anvil, will dry their tears when they learn that the business of the village smithy was never better than it is today.

This fact was brought out at the annual convention of the Manitoba Association of Blacksmiths, Horse-shoers and Woodworkers, held in Winnipeg.

Although the old grey mare is giving way to the new "vin lizzie" the blacksmith still finds his bow damp with honest perspiration. Instead of fitting doblin with a new set of iron shoes, he is called upon to fix a broken gadget on the tractor and other mechanical repairs.

Business is good in the blacksmith trade, but it is difficult to get the rising generation to take it up. Blacksmiths immigrating from Europe must be relied upon to keep the business going in the next generation. It was said.

John—"What are you so furious about?"

Mac—"Thisy called me an old cat!"

Jean—"Why, you're not so old."

Udd—"My dear girl, has he given you any encouragement?"

Udd—"Well, last night he asked if you and mother were pleasant people to live with."

The word "highways" is said to come from the name of the old Roman road which was elevated as much as four feet above the surface to permit good drainage.

W. N. P. 1670

## Danzig Families for West

Several Hundred to be Brought to Canada is Report

According to reports, arrangements have been completed for the bringing out to the west of several hundred families from the Danzig Free State. This information is given by Rev. E. Schmek, Winnipeg, secretary of the Lutheran Immigration Board, who has returned from a trip to Europe. While there he visited Germany where he interviewed the government officials of that country on emigration. As a result of his interview he expects heavier immigration from that country, this year.

The Lutheran Immigration Board connections have been enlarged in Europe, and 10,000 agricultural settlers will be brought to Canada through activities of that organization, according to Mr. Schmek.

A New Bloomer Dress

Charmingly simple is the attractive bloomer dress pictured here and a style very easily fashioned. The front and back are gathered to a fitted yoke opening on the kimono shoulders while a trim belt fastens in front. The bloomers have elastic run through a top casings and at the lower edge of the legs. No. 1492 is in sizes 2, 4, 6 and 8 years. Size 4 years requires 2½ yards 36-inch material, or 1½ yards 27-inch, and ¾ yard 36-inch contrasting for yoke and belt. Price 20 cents the pattern.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

## Seemed Good Suggestion

Fair buyer for store—I want a present for a gentleman; will you assist me in my choice?

Pollie salesman—Certainly, madam. Would a tie be suitable?

Fair buyer—No. He has a beard.

Salesman—How about a fancy waistcoat?

Fair buyer—No. He has a very long beard.

Salesman—Then how about a pair of carpet slippers?

Fruits and vegetables can feel pain, says a scientist.

But the grapefruit is the only one that strikes back!

Men sometimes make money, but money never makes men.

## Describes Edison's Work

J. W. Lieb Tells Electric Light Body of Development of Lamp

John W. Lieb, vice-president and general manager of the New York Edison Company, told how Thomas A. Edison developed a commercially practicable incandescent lamp, at the dinner of the engineering section of the National Electric Light Association. He said that before Edison began research work on the lamp he devoted six or eight months' study to the gas industry as providing the closest parallel; that underground distribution similar to that used by gas companies was essential. He then calculated that an electric light to be successful must have a resistance of at least 100 ohms, which was far greater than that aimed at by other experimenters, and that on basis began his search for a filament which would carry a tension of 100 volts.

A revolution in the electric industry which will be comparable to the revolution caused by the use of alternating current was predicted by Dr. C. F. Hirschfeld of the Detroit Edison Company. He said he did not know what form the revolution would take, but was satisfied that research work now going on would bring it about in the near future.

## Dentist Advises Use of Milk

Says Average Modern Diet Lacking in Calcium and Phosphorus

At the Board of Trade meeting here, Dr. Wallace Seecombe, Dean of the Faculty of Dentistry of the University of Toronto, took issue with the suggestion of Dr. J. M. Wallace, of England, who has been lecturing throughout Canada that milk should not be continued in the diet beyond two years of age after the deciduous teeth have erupted. Dr. Seecombe stated that the average modern diet is generally lacking in the essential elements of calcium and phosphorus and urged that milk be continued in the diet of children and also of adults because it contains in average serving more of the vital elements than are contained in any other food.

It was also stated by Dr. Seecombe that the teeth of the nation were suffering by over-indulgence in sweets and soft foods. Milk is an excellent food but should not be used for scaling other articles of diet. The food should be so prepared that thorough mastication will be necessary, and this will assist materially in maintaining dental health.

## The World's Prize Optimist

The world's leading feminine optimist lives in Crockett, Texas. She is Mrs. M. A. Woolley. Mrs. Woolley has written to the editor of an Atlanta paper asking him to help her find her first husband who she hasn't heard from since the Civil war. She said he fought in the army under General Wheeler and enlisted in Georgia. Their husband's name was M. C. A. Smith.

A woman writer advises girls never to marry men who talk loud. This advice is certainly sound.

Daniel is the only man we ever heard of who wasn't spoiled by being lionized.

## Champion Jersey of the World

A Jersey calf, drawn in a Government calf club at Armstrong, B.C., has turned out to be the champion Jersey cow of the world, having the record for milk and butter production over a period of ten months.

Pretoria Oxford Janet is the name of this distinguished champion and is owned by Harry Whitaker of Armstrong, B.C. The cow is the only Jersey in the world to give over 1,000 pounds of butter during a ten months test. She also yielded during the same period 14,555 pounds of the purest milk.

The champion is seen looking contentedly from a Canadian Pacific Express car on her arrival at Vancouver recently to be exhibited at the annual livestock exhibition at Spencers.

## Should Be Compelled To Learn English

Immigrants Who Understand Language Make Better Citizens

An Ontario Magistrate recently made the suggestion that foreigners who could not speak English after so many years' residence in Canada should be given some form of punishment.

Rather drastic. But something should be done about it, and they seem to have the right method in Australia.

Every immigrant has to pass a language test. The failure to pass is "No admittance."

If immigrants are never going to learn any language but their own, they should stay in their own land. Unless they get a working knowledge of the speech of the country they have come to they will never become citizens of their adopted land. It seems that they will herd together, forming "Little Italys," "Little Germanys," or whatever country they come from, continuing the habits of their native soil, making no attempt to Canadianize themselves so long as they rub along and make a living comfortably.

Of course in time their children will attend Canadian schools and speak the English language, but they will still only be half Canadianized because the influence and the common tongue of the home will remain what it was in the land the family came from. It will take generations for immigrants of this type to become Canadians, whereas the process of making over should commence from the day they arrive.

There should be a check-up on adult immigrants and everyone of them made to attend special classes for foreigners, so that they cannot make the excuse that they do not know the language because there were no facilities to teach them.

## Advantages of the Country

Subjects of Interest More Varied Than Those in City

It is a matter of common observation that country-bred people are not more dulled than town-folks. Rather have they stores of wisdom which the feverish distractions of townlife do not breed.

For the purpose of education the country provides for more favorable material in some ways than the town. One does not need to be a Wordsworth or a Keats to find joyous subjects of interest and inquiry in the earth and every common life. The boy who lives amid meadows, mountains, woods and streams is at an advantage as compared with his fellow whose horizon is bounded by bricks and mortar, the endless monotony the streets and the endless tude of the factory and workshop.

Ted—"Here comes Dave! He was a golf cup and he'll talk us to death." Jerry—"Hurray! And here comes my cousin. He just bought a new radio. Let's introduce them to each other and leave them to their fate."

Though a man conquer a thousand men in battle, a greater conqueror is he who conquers himself.

# Question of National Defence Is Engaging Serious Attention Of Authorities in Canada

## For Fattening Cattle

Rape, Kale and Cabbage Make Excellent Pasture for Sheep, Swine and Cattle

Rape, kale and some varieties of cabbage make excellent pasture for sheep, swine and cattle, being particularly valuable for young cattle and fattening steers. Grown in poultry runs, they make a satisfactory free-range food for most kinds of poultry. They occupy a permanent place in the regular farm rotation in many European countries. They are, however, not yet utilized in Canada to the extent that their value warrants, and in order to bring them to the attention of farmers the Dominion Experimental Farms Branch has recently issued a pamphlet entitled "Fleshy Annual Pastures" giving information concerning these crops in the hope of bringing about their more general use.

These fleshy annual pastures thrive under a great variety of climatic and soil conditions, and they yield surprisingly well even where the summer rainfall is light. New land may be used to advantage for growing them, and on much soils they are frequently more profitable than any other forage crop. The pamphlet, which may be obtained from the Publications Branch, Department of Agriculture, Ottawa, gives general information on the cultivation of these crops and the uses to which they may be put.

## Account Book for Farmers

Department of Agriculture Prepares One for General Use

Frequent reference has been made in recent issues of the farm press to the desirability of making an inventory or taking stock of farm supplies, implements, live stock, etc., during the month of March. The suggestion is a good one, and the Dominion Experimental Farms System has published an extremely simple Farmer's Account Book in which are several pages especially designed to assist the farmer in making such an inventory. To "keep accounts" in this book requires no special knowledge of book-keeping, simply the ability to write and add, and a record of transactions can often be made in less than one hour a week. The book may be obtained from the Publications Branch of the Department of Agriculture, Ottawa, at a nominal charge of ten cents. No postage need be placed on letters of application.

## Britishers Coming to Canada

This Country Now More in the Public Eye Than any of the Other Dominions

"Western Canada is going to see a tremendous influx of immigrants from the old country this year and it is going to start very early," Col. Ambrose Smith, Winnipeg, declared on his return from a two months' visit to the British Isles. The shipping offices are being besieged with postal inquiries for passages, he said, adding that Canada was more in the public eye at the present time than any of the other Dominions or other countries to which the Britisher usually emigrated.

## Plans South Pole Flight

Commander Byrd is Willing to Make Hazardous Trip

An airplane dash over the South Pole, regarded as far more difficult than his flight over the North Pole, is being planned by Commander Richard Byrd, he told the American Legion Posts at Kansas City. Byrd said plans for the expedition would require two years. He outlined the manifold hazards of the South Pole region, an area twice the size of the United States.

The base would be established 1,000 miles from the objective, he said.

## Sharks May Furnish Leather

Sharks may some day rival cattle as leather producers of the world, in the belief of Martin M. Chelquist, representative of a Seattle leather company. After spending 18 months in Japan instructing Japanese fishermen in the value of "sea steers" hides he predicts that sharks, once used only for food in the Orient, soon will be a substantial source of raw leather.

As a farmer was leaving for the city, he asked his wife if there was anything she wanted, and she replied: "You might drop into one of those stores and get a jar of that 'Traffic Jam' I use advertised."

Since the definite declaration by the Imperial Conference of the independent status of the Dominions there has been a good deal of discussion in Canada of the question of national defence. Reports from Ottawa intimate that the principal feature of the estimates for the Department of Defence will be an increase in the appropriation for the air force with the object of building up that branch.

The Ottawa Citizen thinks that the Royal Canadian Naval Air Service should be revived. It speaks of the work which it did during the war in protecting Canada's sea lines of communication and it says:

"Canada should have a minimum number of cruisers, submarine destroyers and auxiliary ships for naval service; but, most effective, without great expense, would be the revival of the Royal Canadian Naval Air Service. An efficient air service cannot be easily conjured up overnight. The whole success of flying depends upon preliminary organization. "The development of civil aviation, will furnish the very best kind of reserve for national defence. In the development of an air force reserve, however, one of the first steps should be to take the administration of civil aviation out of railway control. Civil government flying and commercial aviation should be administered as separate shipping and railways, by civilian officials.

"In Great Britain, where there is a separate Air Ministry, the department of civil aviation is administered quite apart from the Royal Air Force, although, of course, there is the closest co-operation in building up an air force reserve. It would be an economy for Canada to bring civil aviation, shipping, radio-telegraphy, railways and canals under one minister, in a Department of Communications."

The Citizen suggests that Major-General Macfadden, who has just resigned as chief of staff of the Department of Defence, would be a good man to put in charge of the development of civil aviation. He has qualified as an air pilot—Manitoba Free Press.

## Round Up of Wild Horses

Campaign in British Columbia to Make a Clean Sweep of Roving Bands

Hundreds of wild horses that have been running the bunch grass and sage brush country and the Cariboo mountains in British Columbia, are to be rounded up and slaughtered by "hoss breakers" engaged by the Provincial Government.

The campaign has been carried on in a desultory fashion for several years, but this year the Government hopes to make a "clean-up" of the roving bands that have been eating corn and sheep pasturage and causing depredations among domesticated stock.

It is estimated there are 10,000 wild horses in British Columbia, most of them descendants of the stock brought into the Cariboo gold country by the miners of half a century ago.

According to officials of the Government who are planning the round-up, there is no cause for sentimental regret. The majority of the horses are not of the high spirited, graceful manner of the Arabian type, but bulky, awkward, half-crippled animals whose killing would be an act of kindness. It has not been decided what will be done with the carcasses, but it is probable they will be shipped across the United States border to a plant where such material is being used for the manufacture of fertilizer.

## An Extraordinary Forest

What is probably the most extraordinary forest in the world occupies a tableland some six miles in width, near the West Coast of Africa. The trees only reach a height of one foot, although their trunks are as much as four feet in diameter. No tree here more than two feet high, and the latter are often six feet long. Popular Science.

## Swedish-Belgian "No War" Pact

The Royal Swedish-Belgian matrimonial alliance between Prince-ess Ast and Crown Prince Leopold of has been followed by an accord between the two countries never to go to war over any subject, even those usually elevated, "vital interests" and "national honor."

Wife—"John, will you love me when my hair is gray?"

Hubby—"Why not? I've loved you through three shades of hair already."

## WORLD HAPPENINGS BRIEFLY TOLD

A sum of \$1,000, lost by a party of settlers in a train near Vancouver, B.C., was recovered by a track walker and returned to the owners.

The Canadian legation unfurled its first strip of bunting Feb. 22, in honor of Washington's birthday. Its flag on this occasion will be the Union Jack.

Queen's University announce a new fellowship for the encouragement of research in Canadian history. Sir James Aikens, of Winnipeg, contributed \$2,000 toward the endowment fund, making the new fellowship possible.

Correct attire is required of street car passengers at Rio de Janeiro and the rule is rigidly enforced. Men must wear a collar and tie, and on the first class cars, a coat. A conductor recently rebuked a man who insisted on riding in violation of the collar and tie order.

King George has appointed Lady Maude Hoare a dame commander of the Order of the British Empire. The appointment is in recognition of her recent voyage to India which she accompanied by air, accompanying her husband, Sir Samuel Hoare, British air minister.

His Excellency, the Governor-General of Canada, made his debut as a speaker over the radio when he spoke at a luncheon given at Ottawa under the auspices of the Ottawa council, Boy Scout Association. The speech was broadcast through radio station CNR.

The extract of "Red" influence in the Australian Labor Party has been disclosed in a sensational document issued from the Labor headquarters in Sydney, charging Minister A. C. Williams and other prominent Laborites with plotting during the last four years on behalf of the Communists.

The United States again has taken the lead over the rest of the world in the export trade to Russia, says a Moscow dispatch. For the first quarter of the current operating year America sent \$17,000,000 worth of manufactured goods to Russia, which is about \$1,000,000 greater than for the same period last year. Germany was a close second, England third, and Poland fourth.

American radio programs are to become a regular weekly feature of British broadcasting. Every Tuesday, British broadcasting engineers will test reception from the United States, and whenever it is sufficiently good, they will inform London 2140. The London program will then be immediately switched off and America will be relayed to all listeners, even those who own crystal sets.

### Flag Made of Feathers

Made completely of feathers of birds of paradise, an enormous Italian flag has been received by Sileto. Made of a mile-long strip of feathers, three years ago for British New Guinea. At the time the missionary went away Mussolini made him a present of a bicycle, a saddle, and an Italian flag.

Jerry "I was told when I was young that I'd become feeble-minded if I didn't stop smoking."

Dean "Oh, who didn't you stop?"

The Doctor "Now, now! Forget the man."

Mrs. Casey "I could forgive him better if I could just sweat him."

### Relieve That Lazy, Worn Out, Half Dead Look Don't Wait Another Minute

You can do wonders with your appearance. Bright eyes, cheery smile, clear complexion, snappy steps, all indicate vigorous men and women.

Your trouble may be Constipation—poisons from waste matter in the intestines circulate in the blood through your system.

Sick Headache, Biliousness, Indigestion, Drowsiness, Poor Appetite and yellow complexion generally follow.

**CARTER'S LITTLE LIVER PILLS** is a vegetable laxative, moves the bowels gently, no pain, and do not contain Calomel, Mercury or habit forming drugs.

**CARTER'S LITTLE LIVER PILLS** are small, easy to swallow and if taken daily as a regulator will promote good health.

Try them to-night, to-morrow refreshed. 25c. and 50c. packages.

W. N. C. 1679

### Gives Concert From Airplane

Singer in Machine 4,000 Feet Up Uses New Device

In flight approximately 4,000 feet above the street, John Charles Thomas, concert baritone, sang operatic arias to an audience in Columbus Circle, New York, in the first official test of the "Voice of the Sky," a secret sound-producing and amplifying device which makes possible direct vocal communication between aircraft and any one on the ground.

Mr. Thomas sat snugly in a cabin of the plane, singing and talking into this newly perfected amplifier of the Plane Speaker Corporation of Philadelphia, while his audience stood shivering in the frigid blast below.

Despite the fact that the plane was bucking of a 40-mile breeze, and despite the din of street traffic, the melodies were heard distinctly by the crowds on the sidewalks.

"Hello, New York," came down from the sky in stentorian tones. Then to further demonstrate the amplifier, Mr. Thomas while circling about, addressed his ground audience briefly.

Leaders in the aircraft industry, witnessed the demonstration. Major General John P. O'Ryan, president of the Colonial Air Transport Company of New York, one of whose planes was used in the test, said he believed the "Voice of the Sky" would be of great value in commercial aviation.

"With this device installed in planes on our New York-Boston route, and on the proposed New York to Chicago route," he said, "it will be possible to communicate with the towns and cities over which they pass, as 'No mail today for Sandusky,' or similar spoken messages from the air."

### "CASCARETS" FOR COSTIVE BOWELS, HEADACHE, COLDS

To-night! Clean your bowels and stop headache, colds, sour stomach

Get a 10-cent box now. Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and bad cold—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day or distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the contaminated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean healthy liver and bowel action for months. Children love Cascarets because they never grip or sicken.

### Old Locomotive in Museum

One of the world's oldest locomotives, long famous in England as the Belton Colliery locomotive, has come to rest at last in a railway museum in York, after a triumphant tour of exhibitions. This veteran, in many respects resembling the world's first passenger engine, Locomotive No. 1, was built in 1825, rebuilt in 1857, and again in 1882.

Dread of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

### B.C. Depending on Prairies

Their Development Means Greater Advancement for Coast Province. British Columbia is greatly concerned in the peopling and development of the prairie provinces, according to General A. D. McLean, M.P., for North Vancouver.

"In the progress of the prairie provinces," Gen. McLean said, "they owe great chance to go ahead. We are fully aware of the importance of obtaining Alberta's wheat for shipment through the port of Vancouver."

He thought the time was not far distant when prairie cattle would find their way as fresh meat via the Panama Canal to the British market.

Both fruit and meat would soon be shipped by this route, he said, as the result of the introduction of a new and efficient cooling system on Pacific transports.

"I realize the gravity of the situation," said Sir Isaac Newton as the falling apple hit him on the head.

Minard's—the dependable liniment.

### SUNDAY SCHOOL LESSON

MARCH 6

#### SHARING THE GOOD NEWS

Golden Text: Ye shall be My witnesses.—Acts 1:8.

Lesson: Acts 1:4-8; 2 Corinthians 5:14-20.

Devotional Reading: Isaiah 55:1-7.

#### Explanations and Comments

1. Sharing the Good News. In Sunday, Acts 1:4-8. Persecution followed the martyrdom of Stephen, and the disciples were forced to flee from Jerusalem—they were scattered abroad. They did not think that the responsibility of witnessing for Christ rested upon the leaders alone, and the entire rank and file went about preaching the word.

Philip, one of "The Seven," who became known as Philip the Evangelist because of the success of his ministry (Acts 21:8), went down to the city of Samaria. The Jews had no dealings with the Samaritans, but their Lord's last command (Acts 1:8) bade them witness for him in Samaria. To overcome their prejudice against the Samaritans, the followers of Jesus needed only to go to Samaria and preach to them.

If you are prejudiced against any one, do him a good deed. The Samaritans, like the Jews, were looking for the Christ; Philip made known to them the fact that he had already come. Philip probably little realized the greatness of the movement he was inaugurating when he went down to the city of Samaria and proclaimed unto them the Christ. He found the fields white unto harvest; the people accepted his good tidings concerning the Kingdom of God and were baptized. There was great joy among them when many with unclean spirits, the palsied and the lame, were healed.

"It follows as the night the day that a church with a real personal contact with God cannot keep still about it."

# Announcement to RED ROSE TEA Enthusiasts

CENTURIES ago, when tea was first introduced to the English Nobility, the precious leaves—then almost priceless—were packed in sealed lead containers.

For many generations lead continued to be used as a protective package for all fine quality teas. Then the modern metal, Aluminum, was introduced. But during war-time and later, paper bags and paper boxes were largely used and have held sway ever since.

In our 30 years experience putting up Red Rose Tea we have used all these containers and each has some particular merit.

But careful tests over a long period prove that Aluminum is by far the best container that has yet been found, and paper packages of every kind the poorest. When in contact with dampness paper absorbs moisture which soon affects the quality of the tea, and in some instances completely spoils it.

Having found the paper package unreliable and uncertain, we have again adopted the Aluminum package which we used years ago. For we know now that Aluminum can be better depended upon than any other.

Unlike paper, Aluminum does not absorb moisture. It preserves all the original flavor and strength. So now and in the future Red Rose Tea will be packed in the Aluminum package, as it was in years gone by.

### Airplanes Will Be Used

To Convey Representatives to Imperial Mining Conference Into Manitoba Area

Representatives of leading mining operators in the British Empire and United States will be taken into the Central Manitoba mining area by air plane when the Empire Mining conference visits Winnipeg next September. If present plans materialize, a local committee, including representatives from all organizations interested in mining, is working to get the necessary planes from the Ontario and Dominion Governments.

The Mining and Metallurgical Congress will meet in Montreal next August, and in the six weeks following, delegates will visit mining fields throughout the Dominion. Members of the ten institutions that compose the congress reside in 70 countries and already 500 reservations have been made by delegates from 18 countries.

M. E. Prof. (after lecture): "Are there any questions?"

Frosh: "Yes, sir, how do you calculate the horse power in a donkey engine?"

The eyelids of a frog wink up and down.

### Cold Relieved or Money Back

Everywhere men, women and children are finding instant relief from Coughs and Colds of all kinds by taking BUCKLEY'S Mixture. Everywhere druggists are selling "Buckley's" under positive guarantee. The first dose produces instant relief. It is—and there are 40 doses in a 15-cent bottle! Never be without this proven conqueror of colds.

W. R. Buckley, Limited, 142 Mutual St., Toronto 2

**BUCKLEY'S** Mixture. Act like a flash—single slip proves it.

### Establishes Home for Blind

Former Jewish Immigrant Afflicted Himself Aids Fellow Sufferers

Sheriff Novoborn, stricken blind while travelling to America as an immigrant 23 years ago, is awaiting the opening on April 1 of the year of the American Jewish Association for the Blind, his contribution to sightless people of his race.

After being detained at Ellis Island until his father paid a bond against the possibility of his becoming a public charge, Novoborn began selling papers at the age of 15. With the money saved from newspaper peddling he founded a printing company in 1912. Eleven years later he began planning construction of the home.

His stay with a boy at the Industrial Home for the Blind in Brooklyn, where he would not eat food prepared there, prompted the idea of an orthodox Jewish institution for the sightless.

### Expect Cheaper Cars

Canadians are to purchase their motor cars a little cheaper as a result of the 29 per cent. reduction on sales tax rates in the Federal budget. It was compared in automobile circles that following the tax reductions the retail price of the majority of cars will shortly be reduced from about \$5 to \$15, or approximately the cost of the automobile license. The sales tax on motor cars is charged on the actual cost to the local dealer, or the duty paid value plus freight and excise tax.

Warren—It is our custom to let a prisoner work at the same trade here as he did outside.

Prisoner—Yes, sir, I was a travelling salesman.

Minard's Liniment for rheumatism.

### Eclipse of the Moon

Five Eclipses of the Moon and Sun Will Be Seen This Year

Two eclipses of the moon and three of the sun, as well as the return of several periodic comets are among the astronomical events slated for 1927, says Popular Mechanics Magazine. Of the eclipses, only one will attract much attention. It occurs on June 29 and will be visible in England early in the morning, the first eclipse seen there for two centuries. June 15, an eclipse of the moon will be witnessed throughout the United States and Canada at 2:13 a.m., eastern standard time; the moon will be completely hidden by the shadow of the earth. The other eclipse of the moon takes place in December, but will not be visible here.

### SO SHORT OF BREATH SHE COULD HARDLY DO HER HOUSEWORK

Mrs. Nelson Moore, Milford, Ont., writes: "I had heart and nerve trouble, and became so short of breath I could hardly do my housework, and was so nervous every little sound I heard felt like a shock to me."

A friend of mine recommended

so highly I got a box of them and they did me so much good I got the second box, and now I am feeling like a different woman."

Heart and Nerve Pills are 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## STATES LIBERAL FISCAL POLICY IS UNCHANGED

Ottawa.—Hon. C. A. Dunning, Minister of Railways, laid the tariff policy of the Government before the House. The Minister of Finance, he declared, authorized him to say the liberal fiscal policy was unchanged.

"We shall," Mr. Dunning said, "move forward cautiously with the aid of knowledge of the facts secured by the tariff advisory board toward the goal of making our tariff structure as light as possible on production industry and the people generally, having always in view the greater prosperity of all the legitimate industries of Canada."

"The tariff must be made to serve the best interests of the Canadian people as a whole. It must be adjusted from time to time to meet the needs, not of one class or group of industry alone, but of our whole economic structure. This does not mean tariff tinkering, so-called, but does mean a continued expert examination and adjustment wherever warranted by the fact as revealed."

A suggestion by E. J. Garfield, U.F.A., Bow River, that there was an understanding between the two chief political parties brought protests of "No, no" from the liberal benches.

And Mr. Dunning was emphatic in saying there had been no such understanding. Mr. Dunning also had a sharp exchange with J. A. Glen (Liberal-Progressive, Marquette), who, earlier in the debate, was critical of the Government's tariff policy. Mr. Glen asked a question bearing on the declaration by Mr. Dunning. The minister replied that an attempt was made last year to put a pistol at the head of the Minister of Finance and members knew with what result. Those who tried the same thing this year, whether friends or foes, would meet with the same result.

Mr. Glen, protesting, declared he had put no pistol at the head of the Government, but had merely put a question as to its tariff policy. In reply, Mr. Dunning again read his declaration to the House and added: "It is my honorable friend is still suspicious after that statement. I must leave him with his suspicions."

## Millions for Wheat Growers

Important Future for Garnet Wheat Predicted by Dominion Cerealist

Ottawa.—A gain of millions of dollars to Western wheat growers will be the extension of the wheat furrows further north than ever before, the possible cultivation of millions of acres in certain districts through the discovery of garnet wheat, is forecast in a bulletin on garnet wheat which has just been issued by L. H. Newman, chief Dominion cerealist at the Central Experimental Farm here.

Garnet wheat which is a hard, red spring wheat like the famous Marquis wheat, is a discovery of the Central Experimental Farm and the bulletin has been issued so that the wheat growers may know how this new wheat is to be raised.

The summary is based upon the behaviour of Garnet with other varieties of wheat on western experimental farms, and shows that the new wheat will ripen from five to 10 days earlier than even Marquis wheat. This means that the area on which wheat may be grown will be extended very much farther North than ever before.

## Cut Cattle Rates

Ottawa.—Word has been received here that the Bedford Line and the Canadian Government Merchant Marine have cut the Atlantic rate on cattle from \$20 to \$15 per head. No information has yet been received as to a similar cut by other lines.

## Advertiser for Crillmoor

Ottawa.—The Civil Service Commission is advertising for a cartoonist for the new cartoon books which are to be installed in Victory Towers of the Parliament Buildings. The salary is to be \$2,500 a year.

## Record for Wireless Beam

McMourne.—For the first time in history unbroken and perfect communication with England was maintained for 21 hours, Feb. 23, by the Marconi wireless beam system. It has been announced.

## May Preoccupy by Easter

Ottawa.—Prorogation of Parliament by Easter, is now forecast in Parliamentary circles. The rumor is that prorogation may take place about Thursday, April 11.

California has an automobile for every 2.9 persons.

W. N. P. 1670

## Suggest Conference on Old Age Pensions

Matter Was Recently Brought Before Alberta Legislature

Edmonton.—Old age pensions came before the Alberta Legislature following the introduction of a motion by J. T. Shaw, Liberal leader, that the Government should introduce at the present session an old age pension bill and an amendment by A. A. McMillan, Conservative leader, that the question be discontinued at the present session and if thought fit, that a bill be introduced as soon as federal legislation upon this subject has been enacted by the Dominion Parliament.

Premier Brownlee adjourned the debate with a view to the bringing in of a compromise amendment on which all those opposed to the motion might agree.

Premier Brownlee thought that even if the federal House decided to accept a principle of 100 per cent. liability for payment of old age pensions, nobody could very seriously challenge the legislation.

If a conference were held, he suggested, it might be possible in the opinion of the federal Government to accept 100 per cent. liability, that it would undertake seventy-five per cent. of it and he pointed out that the Ottawa House might lower the pension age to 65, which would bring Alberta's share of the burden to possibly \$600,000 a year.

## To Protect Shareholders

Shareholders of Saskatchewan Co-operative Elevator Co. to Benefit

Regina.—Shareholders of the Saskatchewan Co-operative Elevator Company will receive \$155.78 for every 1911-12 share for which they originally paid \$7.50, if the bill providing for the payment of the company's share of the burden to possibly \$600,000 a year.

Shares issued in succeeding years will be worth proportionately less, the last shares issued being worth \$2.57 under the provisions of the bill. The difference is accounted for by the fact that the shares issued in varying years are paid up in varying amounts ranging from \$42.50 for the 1911-12 shares to \$7.50 for the last issue, stock bonuses accounting for the difference in the value.

"Specialists" who planned to make a "clean-up" on these shares will be out of luck if the bill can prevent it. Premier Gardiner declared, making it clear that the government desired to protect not only the delegates attending the annual meeting of the Elevator Company next week but the thousands of shareholders remaining in the country.

## Time Limit for Tourists

Automobiles Entering Canada From South May Now Stay for Sixty Days

Ottawa.—Permits for automobiles driven by tourists entering Canada have been extended from thirty to sixty days, according to an announcement by Hon. W. D. Egan, minister of customs and excise.

In the past, American tourists entering Canada have been permitted to drive their cars in this country for thirty days without payment of fee. This period has now been extended to sixty days with the option of an extension to ninety days under certain restrictions.

It is understood that tourists wishing to remain the full limit of time will be required to present identification and credentials from authorized motor clubs or similar organizations. For some years past provincial governments, Canadian automobile clubs and organizations interested in tourist traffic generally have been seeking to have the thirty day restriction widened.

## Would Aid Boy Scouts

Ottawa.—Suggesting that some portion of the 10 per cent. reduction in income tax, provided for by the recent budget of Hon. J. A. Robb, minister of finance, should be paid by each income taxpayer to the Boy Scouts' Association, His Excellency Viscount Willington made an earnest plea for financial support to the association at a largely attended luncheon here. His Excellency said he spoke as Chief Scout for Canada and called on behalf of the Ottawa Association.

Premier on Vacation

Atlantic City, N.J., Premier W. L. M. King of the Dominion of Canada has arrived here for a brief vacation. Mr. King refused to see newspaper men on his arrival, declaring he wished to rest.

## Russian Refugees Fighting in China

Vanguard of Chang's Army Suffer Many Casualties

Shanghai.—Six thousand "white" Russians, vanguard of Chang Chung Chang's army, defeated forces of Wu Pei Fu in Honan province in a battle in which the Chang forces alone suffered 5,000 casualties.

The Russians, believed to be refugees who fled to China to escape the Bolsheviks in their own country, are fighting with Chang's army in its attempt to force its way through the territory of the inactive Wu so it can attack the Cantonese forces in the south.

## Will Settle Legality of General Strikes

Job for Government Not Judge, Says Earl Birkenhead

Liverpool.—The broad intentions of the Government's legislation to be introduced restricting the privileges of trade unions were indicated by Earl Birkenhead, secretary for India, in the course of his address here. "We do not think it proper to leave the legality or illegality of a general strike to depend upon the expression of opinion of a judge, however distinguished he may be," he said. "We intend that it should be laid down by the authority of that parliament which was challenged, that now and hereafter that weapon is forbidden, and has become criminal."

## MANY BRANCH LINES PROJECTED FOR THE WEST

Ottawa.—Hon. Charles A. Dunning, Minister of Railways and Canals, has given notice of his intention of submitting to Parliament for its approval at the present session, a program of construction work suggested by the management of the Canadian National Railways and their board of directors. Parliament is to be asked to authorize the Canadian National Railways to proceed with the construction, during the next three years, of 470.2 miles of railway. The proposals are divided into three groups:

- 1.—Lines which offer economic and operating advantages to the system.
- 2.—Branches for the purposes of general development and colonization of the country which will constitute feeders to the system.
- 3.—A branch which will link the Hudson's Bay Railway with the South lines of the Canadian National Railway system.

The cost of these new lines, which are to be completed by August 31, 1920, will be \$19,120,000 and the program has been submitted, the management states, after exhaustive consideration of the requirements of the National system.

About 50 per cent. of this railway building program will be in Saskatchewan, even an analysis of these figures shows. This is entirely apart from the extension program of the Canadian Pacific Railway.

The railway management states that it may be found desirable to ask at some time during the next three years for one or two extensions, as a result of developments not fully known at this time.

The railway executive also have expressed their satisfaction at the results obtained from the new lines which Parliament sanctioned in 1921.

## Practise High C's on the High Seas

Sydney H. Nicholson, organizer of Westminster Abbey, conducting a rehearsal on board the Canadian Pacific steamship Montrose with the boys of the Westminster Abbey choir, now touring the Dominion in a series of song recitals. With the boys is seen Dr. A. V. Baillie, Dean of Windsor, who is accompanying the choir in its Dominion wide trip.

## BRITAIN SENDS STRONG NOTE TO RUSSIAN SOVIETS

London.—The rising tide of British feeling against Communist propaganda and the unsatisfactory relations between the British Government and the Russian Soviets have culminated in a stern warning forwarded by Sir Austen Chamberlain to the Soviet Government against the "continuous breach of solemn engagements" between the two Governments and also the wide-spread Bolshevik propaganda.

The warning was in the form of a diplomatic note, declaring in the gravest terms that the Anglo-Russian trade agreement would be abrogated, even diplomatic relations completely severed, unless "the flagrant violations of the solemn agreement between the two countries cease."

The note, addressed to M. Tzenkoff, Soviet representative in London, is the strongest of the numerous protests sent to Russia since the trade agreement was signed in March, 1921, and is one of the most outspoken diplomatic documents ever issued from Downing Street.

The first heavy clouds on the Anglo-Russian horizon came in 1921, when the Soviet representative in London, Zinoviev, declared the strikes as have recent events in China, where the British are convinced Bolshevik agents caused the Chinese to single out the British as their arch-enemies among the hated foreigners.

## Grain Shipped Cheapest Route

Western Growers Have no Preference as to Ports

Halifax, N. S. Nov., member of the Dominion Grain Commission, and one of a delegation of Western grain men who inspected the elevator facilities at this port, states that no great movement of grain through Halifax can be anticipated pending additional terminal equipment.

Mr. Snow contended western grain growers and shippers had no preference as to ports. They were primarily interested in economy and Halifax, Saint John and Portland looked all the same to them.

Grain would follow the cheapest route and by way of illustration he pointed out that United States grain was shipped through the port of Montreal when that port offered the lowest rates available.

## Addressed Large Audience

New York.—The voice of President Coolidge in eulogy on George Washington was carried by radio to count less millions throughout the world—the largest audience ever addressed by man. Mr. Coolidge's voice was broadcast throughout the country by a look up of 12 stations and rebroadcast in Europe, London, Paris and Berlin listened in and reports were that reception was unusually clear.

## Petition for Resources

Ottawa.—A petition bearing 5,500 names asking for the return to Alberta of its natural resources "with out restriction" was tabled in the House of Commons by H. C. Hocken, Conservative, Toronto West Centre.

## Young Journalists Will Attend Meeting

One Thousand Expected at New York's International Gathering

New York.—More than 1,000 boy and girl editors ranging in age from 12 to 18 years and representing school publications in 43 states, Canada, Alaska, Hawaii and the canal zone are expected to attend the third annual convention of the Columbia Scholastic Press Association here, March 11 and 12. The student journalists have submitted their publications in a competition for 13 silver trophies and certificates of honor.

Papers written and edited by kindergarten children will be entered in a feature contest. Foreign language papers, prepared by American students and trade journals will also be entered in the contest. The publications to be represented at the convention run into hundreds and are of many different types.

## Found Guilty of Arson

Six Kiev Firemen, Including Chief, Will Be Executed

Kiev, Ukraine.—Seven sentences have been passed on ten firemen found guilty of arson. Six of them, including the chief, will be shot, two were sentenced to ten years' solitary confinement and the other two must serve five years in prison. The chief pleaded that the men set the fire fearing they would lose their positions because of a long period of inactivity.

The members of the fire brigade were arrested several days after they had been compelled for heroism and skill in fighting fires in the Trade Union Club of Kiev, and the headquarters of a navigation company. It was charged by the police that they deliberately set the buildings ablaze for excitement.

## Ambassadors Deny Rumors

England Has Not Given Italy Free Hand Against Turkey

Constantinople.—Rumors that England had granted Italy a free hand against Turkey as compensation for Italian cooperation in China so agitated public opinion here that the Italian and British ambassadors today issued public denials.

Deputy Mahmud Bey, chief spokesman for President Mustafa Kemal Pasha, scouted the idea of Italian aggression, but stresses the fact that the reinforced Turkish army is prepared for any contingency.

## ANGLO-AMERICAN AMITY STRESSED BY HON. MASSEY

New York.—"To strengthen the bonds of sympathy between His Majesty's oldest Dominion and the Government and people of your great Republic."

Thus Hon. Vincent Massey summed up his mission to the United States in a speech before the Pilgrims' Society here. It was his first public address in the United States since he assumed office as Canada's minister to Washington.

Mr. Massey paid tribute to the friendliness of Washington extended by President Coolidge, the members of his cabinet and the citizens of the capital generally. He stressed his hearers that Hon. W. S. Phillips, newly appointed minister from the United States to Canada, would find a genuine welcome awaiting him in Ottawa. He went on to speak of the "noble contributions which the Pilgrims' Society has made to the cause of strengthening the friendship which exists, and must ever exist, between the people of the United States and of the British Empire."

"Canadians," he added, "are on the same high plane of international unity and goodwill. We feel that we know you who live just across our border and can understand in some measure and appreciate the intricate and fascinating pattern which modern American life presents. On the other hand, we have, too, a first hand knowledge of and an abiding affection for the great mother nation whose impress has been placed upon our institutions and our modern life."

"Undoubtedly a common language and a common basis for art and literature, the United States and British peoples probably always will be found shoulder to shoulder in any crisis which threatens society," Mr. Massey said.

"National characteristics," he added, "are not an obstacle to international unity. They give color to life in a world where standardization has become a peril. Unity in diversity is a key to Anglo-American relations."

## BRITISH CRUISER FOR PROTECTION IN NICARAGUA

London.—The order issued by the British Government for the light cruiser Colombo to proceed to Nicaragua has attracted but slight attention from the average Britisher, while the press and officials say the despatch of the vessel offers no infringement of the Monroe Doctrine. The British Foreign Office holds that the present order to the Colombo does not affect the Monroe Doctrine, and that the Colombo is going to Nicaragua merely as a refuge for British nationals. The Colombo was said to be instructed to stand off Bluefields, without sending a landing party ashore, and to keep in readiness to take on British subjects in case their lives are endangered by the civil warfare now in progress.

The official complained that the Colombo was not ordered to Nicaragua until the United States Minister indicated he was unable to give further assurance of American protection of foreign lives and property.

The British nationals in Nicaragua number 200 odd, and represent \$2,000,000 in investments.

Street fighting during the recent battle at Bluefields was said to have resulted in damage to the extent of \$10,000 to British property.

## Twelve Battalions Under Orders

But Number of British Troops for China Is Unknown

London.—Doubt exists regarding the strength of the British forces which should be arriving in Chinese waters in the course of the next few weeks. In some quarters it is put as high as 15,000, in others as considerably under 10,000, but "Twelve Thousand Troops for China" figured on the posters. The twelve battalions which are under orders, under the command of Major-General John Duncan, will embark 850 men each, or about 10,000 in all.

In addition, there are a thousand marines and the armored car troops, as well as the naval ratings. The Indian brigade consists of two British regiments and two regiments of Punjabis. General Duncan will be independent of either of the two British military commands in China, He has left for Shanghai and his troops will follow as transports become available. They will be known as the Shanghai Defence Force.

## Is Champion Dog Musher

Quebec.—Emil St. Godard, The Pas, Man., finished the race in the Quebec International dog derby in three hours, 55 minutes and 15 seconds. His total elapsed time for the three days of racing was 11 hours, 27 minutes and 25 seconds, which concedes him the race and title of champion dog musher of the North American continent and of the world.

## Australia's Wheat Crop Larger

London.—Sir Joseph Cook, High Commissioner of Australia, informed the annual meeting of the Australian Chamber of Commerce that Australia is expecting a much larger wheat crop than last year. He estimated the present crop at 165,000,000 bushels, of which 120,000,000 would be available for export.

## Ask Accord on War Debts

Paris.—France is asking Great Britain and the United States for provisional records on the war debts, Premier Poincaré told the Chamber of Deputies. The records, he added, would not be submitted to Parliament for ratification, the government alone being responsible.

## Mail Planes Burned

Kansas City.—Fire destroyed a hangar at Richards Field, near here, containing four air mail planes. The planes were owned by the National Air Transport line, which holds the Chicago, St. Louis line contract. The damage was estimated at more than \$100,000.

## U.S. Miners May Strike

Washington.—While there remains the possibility that the soft coal miners and operators of the country will reach an agreement at a later conference, the break on the Michigan meeting is looked upon here as practically as being a strike April 1.

## Celebrate Red Army Anniversary

Moscow.—The ninth anniversary of establishment of the Red army was observed throughout Russia, Feb. 23. The newspapers carry articles by leading Soviet authorities who emphasized the preparedness of the army to meet all eventualities.

## Commercial Air Supremacy

### French Planes Are Challenge But Tautonic Lead Is Kept

The battle for world leadership in aviation is being fought first with engineers and second with money and organizers. French machines are the finest performers in the world, holding the three world's records for speed, altitude and distance in a straight line without descent, but Germany is building the best commercial planes. The German foundation for a commercial aviation industry has been so well laid that she is now admitted by the French to be the greatest commercial air power in the world, and seems destined with, in the next few years to establish herself firmly in that position unless something happens to overturn the probabilities.

These are a few of the conclusions gained from observing the exhibits in the tenth Paris Aviation Salon and from examining the comments of experts. There seems little doubt but that this Salon will go down in French aviation history as marking the end of one phase in French plane building and the beginning of a new. From now on less attention is to be paid toward the development of fast military planes and more to the building of passenger and freight carriers. It appears that the history of the automobile is to be repeated. The high-speed, hand-built, exquisitely performing machine built like a Swiss watch, but which obtains too qualities at the expense of complication and high cost, is to give way before the more rugged, safer and more economical machine. Germany has forced the change.

### Competing for Passenger Trade

#### Germany Starts Construction of Two Large Ocean Liners

Since the war the largest and fastest ships of Germany's former merchant fleet have been plying in the transatlantic service of her competitor nations. With smaller, slower ships, German lines have succeeded in recovering a substantial percentage of business. Part of it has been in passages between the United States and England, but Germany is handicapped in full transatlantic competition by the lack of ships of the class of the Leviathan, the Majestic, and the Berengaria.

The announcement that the North German Lloyd has begun the construction of two 14,000-ton liners amounts to Germany's notice that she hopes to regain her former important position in the passenger service. The displacement of the German-built Leviathan is 55,957 tons. That of the Mauretania is 36,026. The Bremen and the Europa will not be completed for perhaps two years, but when they are ready, they will have the advantage of developments in steam-pressure efficiency which will give them a speed of 26 knots an hour. That will compare with the Leviathan's speed of 27.6 knots an hour for a trial trip of twenty-five hours and with the Mauretania's transatlantic record of an average of 26.25 knots an hour.

### The Miles We Carry

#### All Wearing Apparel Contains Surprising Length of Thread

Statistics show that every inch of cloth contains about twenty-five threads running downwards and the same number running across it, so that a square yard is composed of 1500 threads, each a yard in length. The average suit or costume needs four square yards of cloth, so that every man or woman wears something like four miles of wool.

Allowing two sets of clothes a year we find that each of us uses 140 miles of wool in five years.

When we come to linen or cotton goods, with eighty or 100 threads each way to the inch, the total length of thread becomes astounding. A single handkerchief only contains 2,100 strands each 15 inches long, so that 1,600 yards of cotton thread are required to make it.

A pair of trousers about three miles of thread.

### The Royal Ranch

There is a W. L. Crake, manager of the Prince of Wales ranch, near High River, in Ontario to England where he will continue his royal employer's record, business matters pertaining to the ranch, purchase new stock animals for the usual year by year extension of the Prince's personal activities in Alberta.

There are given in China for purposes of the most important. They are used to take out the most important and the most important and the most important.

## Advice for Motor Drivers

### Extreme Caution Is First Law of Common Sense

Keep your foot in the clutch despite what experts tell you to the contrary. If the traffic is great, keep your foot on the clutch. Don't take unnecessary chances on the highway or in the street; slide over the bumps, thus saving your machinery; and don't forget your brake. Caution is the first law of good sense. When it is to do with 40-horse-power. Approaching an intersection, remember clutch and brake.

Youths make daring drivers. They go rapidly and easily, with fearless abandon and nonchalance. But they have an undue share of accidents because they don't think enough of clutch and brake. Oh, yes, there are disasters through confusion, and through timidity; but they are not the disasters of the young drivers. Nine-tenths of the wrecks come from going too fast.

A good driver will keep control of his machine at all times. He can stop quickly but without a shock. He can go slow, as he must when others might be endangered by his fast driving, but can step on the gas and leap ahead when he sees his opportunity. The person who controls his power all the time is the one who has the opportunity, which in the heavy traffic of life is an ever-present opportunity. The man who has learned the one who knows, and the one who knows is the one who has opportunities. When one is in no position to take advantage it is not an opportunity for him. Therefore the discipline of the mental power is the putting of hand and foot on the various controls of life.

Many lives are wrecked by even a momentary loss of control. It is quite the custom to blame some other driver. It is possible for an automobile to be wrecked by the carelessness of some other man than the one driving it; and for a life to be ruined by the fault of another; but it is exceedingly rare. When such a calamity occurs it is to one who has lost control of his machine, it but for a moment.

Keep your foot on the clutch!

### Preferred to Lose Case

#### Street Trader Summoned for Selling Bad Eggs Refused to Eat One

When the Magistrate of Reading was first called to the bar as plain Mr. Rufus Isaacs, he was retained to defend a man, a street trader, who had been summoned for selling bad eggs. Mr. Isaacs dwelt at length on the splendid quality of the fruit, and in this he was, as was very natural, backed up by his client.

Presently the magistrate intervened. "Ifa either of you tasted the fruit?" he asked.

They both confessed that they had tried to do so. Whereupon the magistrate suggested that either the defendant or his counsel should eat some in court.

Mr. Isaacs turned to his client: "Go on," he whispered, "eat one or two."

"What will happen if I don't?" whispered the client in reply.

"You'll lose the case."

"All right," answered the defendant resignedly, "then I'd rather lose it."

### French Making Unique Map

#### Covers Several Acres at Boy's School

A map of the world, covering several acres with real water for rivers and seas, miniature railroads and smoking volcanoes, is being laid out at a boy's school for Americans twenty miles west of Paris along the Seine. The cost is estimated at 1,500,000 francs.

This visualization of geography is intended to make study a pleasure, and it is on a par with other features of the institution, housed in a chalet built for one of Napoleon's paymasters.

The continents are laid out in concrete with the topography indicated. The seas are deep enough for the pupils to ride by boat from one port to another. The railroad trains are drawn by steam engines.

An old chapel is being transformed into a little theatre.

### A Game for Two

"Dear Clara," wrote the young man, "I am sorry, but I am getting too forgetful. I proposed to you last night, but really forgot your name."

"Dear Will," she replied, "so glad you wrote. I know I said yes to some one last night, but I had forgotten just who it was."

The average life of an inhabitant of the United States is said to have increased 15 years in the past 25 years.

The service of a summons by a New York court.

## Calendar Reform

### Movement Still Under Way to Ingratinate 28-Day Month

Determined efforts to bring about a reform of the calendar with a 28-day month have been taken with the view of definite action at Geneva in August.

In 16 capitals of northern Europe steps already have been taken to show the advantages of the fixed calendar idea. There are opponents of the plan but no organized effort has yet appeared.

Under the proposed plan of reform all months would have 28 days, the first day of the month always falling on Sunday and the last on Saturday. If the year remained the same length an extra month would be introduced, leaving one day over and two in leap year.

### Could Expect Nothing Else

#### Gold Cup Given as Prize by Kaiser Was Only Gift

With the affairs of the ex-Kaiser so much in evidence and his meanness so emphasized by the German author of the latest book about him, the following fact revealed for by Lady Grove, in her "Memoirs of Four Continents," is another illustration of his character. Among the well-known yachtmen with whom Lady Grove sailed at Cowes was Mr. Cecil Whitaker.

"He had won the German emperor's gold cup at Cowes. It was supposed to be worth \$2,500, but I was told that when it was valued later it was discovered to be only \$21, and not worth more than \$250."

It is unlawful for a woman to set foot on Athos Peninsula, in Greece, where monks of the Greek church live.

Bacon fat is preferable to lard for shortening cornbread or muffins.

## TRAVEL BROADENS EDUCATION

The outlook of the average man is usually as broad as the world in which he lives. This being so, it is not surprising that more people are taking advantage of the summer months each year to travel as widely as their means will permit and to write this expenditure off against the two worthy items "happiness" and "education."

In response to demands the Canadian National Railways organized a personally conducted tour from Western Canada to Europe last summer and this proved to be so successful that they have completed arrangements in connection with the Cunard Line, for a second annual tour this summer. From Montreal the tour is an optional one of thirty-seven days or fifty-five days. Both tours will take the traveler through Scotland, England, Belgium, France and Switzerland. The longer tour will continue on into Italy and the principality of Monaco, the capital of which is Monte Carlo, and also to Sicily and the Riviera.

Those making both tours will sail together from Montreal on the S.S. "Aurora," on July 8th, and will disembark at Glasgow on July 16th. From there they will continue together to Edinburgh and through the Trossachs, then south to Leamington, Warwick, Stratford-on-Avon, and on to Oxford and London. Three full days will be spent in and around London before the party leaves for Bruges and Brussels. From Brussels they will continue to Liege, then the parties will divide.

Those taking the shorter tour will move from Liege to Interlaken and thence to Montreux and the Lake of Geneva. From there they continue to Paris where two days will be spent in and around the city and one day given over to a trip to the battlefields. They will leave Paris on Saturday, August 6th for Cherbourg, where they will board the S.S. "Aurora" for Quebec and Montreal, where they will be due to arrive on August 14th.

## An Old French Superstition

### Belief Held During Middle Ages That English Were Tailed Race

It was in the month of January, 1558, that the English lost Calais, the name of which Queen Mary said would be found upon her breast. The capture by the French was due both to the ineffectuality of the garrison and the might of "le General Janvier," for the attacking troops were able to advance across ice formed on the dikes and sluices which were relied upon as a defense.

A curious fact is associated with the English withdrawal from France; the natives jeered at them as "the tailed English." It appears to have been a belief, generally held during the Middle Ages by the peoples of England, that her people had at least the vestige of a tail. As late as the christening of James, who was to become king of the two realms, this superstition was remembered well enough to be a touchy topic.

It is said that great offense was given to some English lords who were at the ceremony, by a company of mimes, who, as they passed the place where the Sotomors were sitting, pretended that they had tails and made the motion of wagging them.

### Where Living Costs Are Highest

An average family's daily basket of provisions, including meat, vegetables, bread, coffee, milk and butter, was the basis of an inquiry by the League of Nations' Labor Office into the cost of living in the chief cities of the world. Lausanne (Switzerland) was found to be the cheapest, with 2 per cent. Philadelphia was dearest with 9.1, and Sydney next with 8.1. London, with 7.1 is eighth on the list.

There is at present a world shortage in tin, caused by the demand for its use in the manufacture of whisky-cord articles, including food sprinklers and still history.

## The Value of Education

### By Means of Education Crime Is Perceptibly Decreasing

Total disregard for the rights of others is the chief cause of crime. One man sees another with a roll of bills, should he be stronger, or, more probably, armed with a gun or black-bag, he uses this advantage to enforce his will.

Entirely disregarding the other man's right to the money, he takes possession, all too often with the additional crime of assault.

To send the assailant to penitentiary removes him from the opportunity to do that kind of work, but changes in character effected are rather infrequent.

Most criminals remain criminals after they emerge from behind penitentiary bars.

So long as there are criminals about there is a grim necessity for prisons, although they do little more than suspend the activities of the particular scoundrel for the term of his imprisonment.

The little more they do consists largely of putting the fear of the law into the hearts of the others.

But the fact that every year produces its crop of murderers and burglars and pick-pockets, as well as thieves and defaulters shows that too little is known about making them better.

Progress, however, is being made.

Period of history shows that the world is by no means as bad as formerly.

It is seldom today that bandits get into power and commit madous as they have been rumored as doing.

Generally speaking the lives and property of decent people are more respected than they once were.

Education is doing that.

Gradually it is insinuating into the human mind the ancient truth that honesty is the best policy.

The study of psychology is still in its infancy and it can be depended upon to do much in the future.

Every time transactions are conducted with persons of known shady business reputation, an incentive is given for them to continue such practices and this makes it increasingly difficult for established and reputable business concerns to maintain themselves in business.

Every encouragement given the undesirable trader is a blow at established business and an assistance to his unfair opponent to carry on his shady methods.—Canadian Financier.

### A Parliamentary "Whip"

#### Each Party Has Four Who Round Up Stragglers When Necessary

The expression was originally derived from the "whippers-in" of a hunt whose job it is to whip up lagging hounds and so to keep the pack together and obedient to orders. In Parliament each of the great parties has its whips, generally four in number, members especially appointed by the leader to "whip in" their fellow members of the party.

When a vote is to be taken, the whips will make every effort to secure the attendance of all supporters of their side, even arranging the pairing off of opposite-party men should anyone find absence absolutely necessary. The word "whip" is also given to the order sent out by them, the request for attendance being traditionally undelivered in accordance with the urgency of the vote, as many as four under-sealings having on occasion been used.

### No Fee Coming

#### A Scot Consulted a Harley Street Doctor, who Inductively Discerned That He Was in a Fix

"Well, you mustn't think it off altogether. You understand? You must become a doctor and have the drink alone." The Scot, ill pleased, was going to the door, when the specialist said, "By the way, the fee for my advice is two guineas."

"That's all right," said the Scot. "I'm not taking your advice."

### Alberta Livestock Export

Exports of livestock from Alberta for the year 1926 show a considerable increase over the year 1925, according to figures announced by the Provincial Department of Agriculture. In 1926 a total of 1,600 horses and 252,000 head of cattle were exported, compared with 1,500 horses and 225,000 head of cattle exported in 1925. The shipments went to other provinces, the United States and Great Britain.

The nickname "Quaker" was originally applied to the Friars by Justice Bennett, a Twelfth, England, magistrate in division of George Fox, the founder, because he admonished the magistrate to "quaker" at the name of the Lord.

Lightning wanders round and round, says a scientist. But it gets there just the same.

## Management Of Bees In Spring

### Expert Advice Is Given by Dominion Apiarist

Following are some pointers given by Mr. C. B. Gooderham, Dominion Apiarist, in Bulletin No. 71 of the Dominion Department of Agriculture. Colder weather bees should not be moved before pollen and nectar are available. The right time is when the first willows show pollen or when outdoor wintered bees start bringing in new supplies. Shelter from cold winds is desirable.

Remove either in the evenings or early in the morning or on a dull day. Close the entrances when moving bees from cellar and when the filling is removed reduce the entrance to two inches.

Colonies may be examined on a warm day when the bees are flying freely. To those having less than fifteen or twenty pounds of stores, feed sugar syrup or combs of honey saved from the previous year.

Don't equalize stores unless the apiary is free from disease and never feed honey from an unknown source. A good beekeeper seldom has to do any feeding in spring, sufficient having been done in the fall.

Entire colonies that are queenless or have queen-producing queens to colonies having fertile queens.

Replace failing queens at once. Weak queen-rift colonies may be saved by placing them over strong colonies with a queen-excluder between for a few weeks, or may be strengthened by adding package bees.

Deer first examination until after a few days of favorable weather conditions and nectar is coming in freely.

Outdoor-wintered bees can be examined while still in their cases.

Bees need large quantities of water in the spring. To prevent them having to go long distances for it supply the water in some sheltered spot in the apiary.

The second examination, which will not be necessary for 2 or 3 weeks if the weather does not warm up rapidly and new nectar and pollen are not abundant, watch for brood diseases.

### People Editors Appreciate

#### Those Who Voluntarily Will Give News for Publication

The duty of the average man to his newspaper is as defined by the Walkerton Herald and Times: "Many good items of news are lost to the newspapers by the modesty of the people who hesitate to tell the reporters of matters concerning themselves. Not that they do not want their names to appear in print, but they are afraid they will be judging themselves forward. This is the wrong idea. From the reporter's viewpoint, the man who stops a newspaper contributor on the street and inform him that he has been away to some other city, that he is going to get married or his wife entertained friends or presented him with twins, is the best man alive. May his likeness increase throughout the earth. If you have done anything mean or disreputable, it isn't necessary to tell it, for there are always plenty of people who will do that for you. It is the good things about yourself and your neighborhood that the newspaperman wants you to give him."

### Churchill Is Amateur Artist

#### Chancellor of Exchequer Turns to Brush for Recreation

When Winston Churchill wants to forget bullets and everything else connected with his job as Chancellor of the Exchequer, he picks up a brush and palette and begins to paint. To ease his mind of affairs of state as President, Woodrow Wilson used to read detective stories night after night in the White House, and Mr. Churchill tried this, but the system did not work. So he went back to his paint brush as an aid to ease his mind when troubled by figures and finance. Mr. Churchill studied art as a boy, and his friends declare he could have easily become a painter or of the first rank had he been able to shake off the family tradition of politics. The Chancellor's idea of an ideal holiday is to skip off to Egypt and spend a week or two painting the pyramids.

### New Idea for Churches

At the Simpson Methodist Episcopal Church in Minneapolis huge swinging doors have been placed under the high path. On these doors in large letters, appear the words "Holy Bible." As the Rev. Roy L. Smith delivers his sermon, the doors swing open and the Biblical characters as mentioned in the address emerge, impersonated by actors in full costume.—The Outlook.

The average man meets temptation about three-fourths of the way.

Strange, Romantic Love Adventures of the Flapper you know!

**Joanna**

by H. L. GATES

Copyright 1923 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

CHAPTER XXVIII. Continued

"No, you won't!" Joanna agreed. "Neither shall I. Teddy would rather have his final answer from me, than delivered through his sister. I know. And, I fancy, he'll know quite well, as a dormitory wags and howl. Perhaps he'll get it. Perhaps not. I shall walk through the grounds. I think you said you'd like to see something of the preparation I'm making. While we are about it, I hope you'll choose the place for your seats in my pavilion theatre. I'm staging a little play there that I think you'll love."

The spent an hour on the grounds. It was as if they had forgotten their time at the tea table. Lady Betty was certain again, and enthused anew at each forecast of the endless thrills produced by each preparation made by the workmen on the Annetts' house. At the pillared pavilion she was sympathetic with the mystery Joanna spread about the plans which were to have their climax there.

"I shall have Teddy sit close to me to protect me from whatever devilish this pagan temple shall unfold," she threatened. "I shall want him to be very close to you," Joanna agreed. And Lady Betty looked at her quickly. There was something new in the voice of the Golden Girl.

CHAPTER XXIX

Memories Again

If the visit of Lady Weymouth left its impress upon Joanna, only Teddy and Joanna and Teddy Dornier seemed it. Neither of them knew of the appeal to the Golden Girl by the sister of one of them, but both, in their separate recital of her recollections of a subtle but insistent change in her.

Joanna might have realized it, too, but his was a sensitive observation. And, as the days passed, Joanna had drawn him closer and closer to herself alone. That Joanna was delicate and nervous, in her constitution of the young architect whose name had so suddenly become known around the world, was apparent to all that gazed which worshipped, like glittering deities of a London cult around the shrine where it is told that glitters.

As Dornier had reacted to her, Joanna had reacted to him. He had, indeed, and as even Lady Weymouth might have said, those who watched were quick to recall, it had been pronounced that when the brilliant, always dashing Joanna Dornier decided to

glints of the sun and tingled them with tiny, intelligent, well over the whole Mediterranean shore.

"It means something, that that in the atmosphere," Joanna observed. "One of the Monagues who live here the year round probably would make a prediction of some sort. Every one of them is a weather expert."

They would have spoken of the haze in the air to one of the natives but in their absorption of the imposing details of the resplendent of the Annetts grounds, they forgot the embryo artist. As was her custom of late Joanna acknowledged no intrusion between John and herself. After that first day, the day of his arrival, which her heart was ready to leap to his, but was repelled, she had been what ever his current mood dictated that she should be. At times he put his arms around her, and drew her to him, and there were silences between them. At other times, today, Joanna knew, he was fighting with a serious hurt.

The first weeks of his visit had been a calendar of notable occasions for him. The Prince of Monaco, interested always in topics and proposals that are of human merit, had honored him with a command audience and had presented him to that distinguished group of scholars and scientists and worthy men of other professions, who gather around him from many parts of the world. It is their tribute to the Prince who is dead, the father of the present ruler of the little principality. These savants greeted the young American with enthusiasm. They complimented him upon the daring of his projected experiment to the feasibility of the inspiration for deeds of valor that soldiers perform on the battlefield. They were interested in the spectacular rise of the young student. He was asked to deliver an address, and did, with triumph to himself.

Just this day, Joanna knew, one of these commands into the coveted circle of men whose names were great, had been cancelled; not abruptly, or offensively, but nevertheless, it could only be interpreted as a reminder that even a great purpose and a high ambition could not withstand a too flagrant violation of certain standards. John had become too much a frequenter of the routinized rooms. And there was too great an interest generally in putting him out as the new devotee of the beautiful Yvonne Contant, and one who would need to sacrifice deeply at the altars of her sorceries. The distinguished young visitor from America had become one of the bery of moths, even if it be brilliant and those who distribute honors are sometimes conservative.

The girl who walked through the Annetts grounds with him would have liked to comfort him, but he would give her no opportunity. While they stood on the Terrace steps and watched the distribution of huge piles of blossoms, roses, rhododendrons, and minnows, already being brought from their Monague gardens, Joanna remarked:

"You haven't complimented me up on all of this. Doesn't it remind you, somehow, of the evenings we spent planning the time when we would visit to the Imperial Institute, South Kensington? Through the various courts depicting every phase of life and industry in New Zealand, Australia, Canada, West India, West and East Africa, Malay, India and Ceylon wandered the Prince. Every now and then he remarked on the accuracy of the dioramas, and revealed his own stay at the place illustrated. The Prince gave permission for the construction of a diorama depicting his ranch in Alberta, and offered his help so that it will be accurately reproduced."

Will Reproduce Alberta Ranch

Prince Gives Permission for it to be Used in a Diorama

Distant parts of the Empire were visited during one fascinating hour by the Prince of Wales, when he paid a visit to the Imperial Institute, South Kensington. Through the various courts depicting every phase of life and industry in New Zealand, Australia, Canada, West India, West and East Africa, Malay, India and Ceylon wandered the Prince. Every now and then he remarked on the accuracy of the dioramas, and revealed his own stay at the place illustrated. The Prince gave permission for the construction of a diorama depicting his ranch in Alberta, and offered his help so that it will be accurately reproduced.

Exports From Alberta

Exports from the consular district of Alberta to the United States, in 1926, show an increase of \$110,661 over 1925, according to the annual report of S. C. Reat, American consul at Edmonton. The total exports from Alberta for 1926 amounted to \$7,235,766, while the previous year's total was \$6,835,392. While exports from the Calgary district showed a drop of \$708,689, those of Edmonton and Lethbridge districts gained respectively \$763,310 and \$109,813.

Many a man claims to be nervous, when as a matter of fact he is merely ill-timed.

The older a lamb grows the more sheepish he becomes.

### Can Give Palestine Points

British Isles Have More Places With Bible Names Than Holy Land

If you glance through a Gazetteer of the British Isles you will find an astonishingly large number of place-names which have been selected from the Bible, observes a writer in John O'London's Weekly. In fact, in this respect Great Britain can give Palestine points and a beating, for while the Holy Land has only one Jordan, there are in Britain eight, including a river near Edinburgh, a hill in Dorsetshire, and a sandbank off the Lancashire coast, the other five being county seats, villages, or suburbs.

There are two Jeriches—one in Lancashire, one in Lancashire, and a couple of Joppas. Of the latter the better known is, of course, a suburb of the well-known Scottish seaside resort, Portobello. The other is a village of Yorkshire.

Wales possesses two Bethshams, both in Carnarvonshire. One of these is well remembered for the record strike of steel workers, which caused its huge quarries to be closed for years.

Novelists have nicknamed London the modern Babylon. There is actually a Nineveh in the country, this being the name of an old farm near Aldborough, in Yorkshire.

Mount Ararat may be found on our large-scale Ordnance map, also Mount Zion, Mount Ephraim, and Mount Tabor, while Mount Carmel is a big house in County Monaghan, in Ireland.

The name of the patriarch Jacob is commemorated by Jacobstow in Cornwall and the village of Jacobstow in Devon; the heights of Abraham can be found in Derbyshire.

### Indians Send Address To Lord Willingdon

Governor-General Accepts Invitation To Visit Grandfather Reserve

A reply addressed to the chief councillor of the Six Nations Indians was received from the Governor-General, Lord Willingdon, to an address forwarded recently by the Six Nations Council to the newly appointed Governor-General. The address was in the nature of a welcome to the Dominion, and an invitation to visit the reserve, following the footsteps of the King and other members of the Royal family. In reply His Excellency expressed thanks for the cordial good-wishes, expression of loyalty, and notes that they "look forward with much pleasure to the opportunity of seeing you in a visit and receiving the cordial welcome of which you assure us."

### The Soviet Peril

A main purpose of Soviet policy is to destroy the chief "stronghold of civilization" which they believe to be situated in Great Britain. This purpose explains, in part, their intrigues in China. The other part of the explanation may well lie in their desire to organize "the East" against "the West" so as to bring on the universal revolution of which Lenin dreamed. Mr. as a people, cannot afford to ignore what is being done to hurt us and the type of civilization for which we stand.

Saskatchewan Creamery Butter

Creamery butter production in Saskatchewan in 1926 totalled 16,622,765 pounds, an increase of 65,522 pounds over 1925, and a record in the history of the province. The aggregate value was \$5,458,512 or an average of 32 cents a pound. Total value of all dairy products ran to \$26,738,512.

### Large Pimples Lasted A Year Cuticura Heals

"My face and neck were all covered with pimples. They were hard and large and festered and scaled over. For a while the itching and burning were so severe that I could not help scratching, and my face was disfigured. I lost my sleep for about a month on account of the irritation. The trouble lasted one year."

"I used other remedies but they failed to help me. I sent for a free sample of Cuticura Soap and Ointment and used it for a month and in one week I was free of my trouble. I am now a healthy man."

Clear the pores of impurities by daily use of Cuticura Soap, with lather, and Cuticura Ointment as needed to soothe and heal. Cuticura Talcum is fragrant and refreshing, and a perfect skin powder. Sample Box Free by Mail. Address: Cuticura, Dept. 500, New York, N.Y. Price, 25c. Cuticura Shaving Stick 25c.

### Are Pleased With Massey

Says Canada Has Paid U.S. Commitment in Its Choice of Minister to Washington

The Washington Star, commenting editorially on the new Canadian ministry, says:

"The Canadian government has paid a distinct compliment to the United States in the choice of its first minister to Washington. Few diplomats have come to the United States so well equipped with a knowledge of the problems which will arise and an understanding of the viewpoint of the American government and people." The Star suggests that "a huge task confronts the new minister in the Great Lakes-St. Lawrence deep waterway alone and there are other questions such as water rights and sanitation to keep him busy, with the ever-present problem of smuggling both ways across the border thrown in for good measure."

### Neuralgia Conquered Its Pain Destroyed

Magical Results Come When You Apply

### NERVILINE

It Acts Quickly

Mr. W. T. Greenway, formerly connected with the Globe newspaper staff, has written: "For twenty years we have used Nerviline in our home, and for the world would we be without it. As a remedy for all pain, neuralgia, toothache, cramps and disordered stomach, I know of no preparation so simple and quick to relieve as Nerviline." Remember this, wherever there is pain, rub on Nerviline, and you will get prompt results—at all dealers.

### Cannot Do Without Advertising

No business is so great that it can afford not to advertise. No business is so small that it cannot afford to advertise. No town or city is either too small or too large to advertise. And it seems now a propitious time for community advertising.

### BABY'S OWN TABLETS ARE OF GREAT VALUE

To All Mothers Having Young Children in the Home

No mother is so fond of such aid to mothers of young children as is Baby's Own Tablets. The Tablets are the very best medicine a mother can give her little ones during the dread of teething time because they regulate the stomach and bowels and thus prevent constipation and indigestion; prevent colic and diarrhoea and break up colds and simple fevers. Concerning Baby's Own Tablets, Mrs. John Patterson, Scotch Village, N.S., says: "I have six children, and all the medicine they ever get is Baby's Own Tablets. I would use nothing else for them and can strongly recommend the Tablets to all mothers."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Little Helps For This Week

For none of us liveth to himself.—Romans XIV. 7.

I live for those who love me. For those who know me true. For the heaven that smiles above me, And awaits my spirit too. For the cause that lacks assistance, For the wrong that needs assistance, For the future in the distance, For the good that I can do.

Influence is as inseparable from character as the fragrance is from the flower, or the shadow from the substance. Every one that lives, therefore, lives not merely unto himself, but has a subtle influence always radiating from him that produces some effect on others. On the rocks beneath its foot will find the impress of the tiniest insect as well as that of the largest mammoth; and so in the strata of society, each man has his own place to fill, and will leave his own mark behind for blessing or for the reverse.

A clerk who had been on a buying trip in New York wrote to the store bookkeeper back home as follows: "Since I have been away, I have seen many strange sights, and hope to see you on Monday."

"Could you let me have \$20 on this suit of clothes?" "Psychology (reveling the suit up and down). "Well, maybe I could, if I were about \$18 in my pockets."

Muscular Rheumatism Subdued. When there is suffering from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

It's easy to be a fool and it's foolish to be easy.

For sale everywhere—Minard's Limit.

**if YOUR HORSE**

has a cough or cold or has been exposed to drenching rains, use Spohn's to keep your horse healthy. It cures colds, coughs, influenza, catarrh of the throat, and all other ailments of the horse, and keeps him in good condition.

**BUNIONS**

DO NOT WAIT 15 DAYS

and suffer from pain with a corn. Spohn's Bunion Compound cures Bunions, Corns, and all other ailments of the foot. It is a sure remedy—does not swell the foot. It is a sure remedy—does not swell the foot. It is a sure remedy—does not swell the foot.

**PRODUCE IT FREE!**—Get your own address, name, and address, and send it to Spohn Medical Company, Dept. 23, Goshen, Ind. 40 From N.Y., N.Y.

**Tickling Throat**

Always annoying, especially when it affects your voice. You can stop it quickly by taking Chamberlain's Cough Remedy. Now sold at 25c and 50 cents.

### A Smoke-Eating Machine

New Device With Suction Attachment Proves Boon to Firemen

Firemen in Minneapolis may soon lose the appellation of "smoke eaters," for they now have a machine that literally "eats" the smoke for them at fire. The device resembles the "suction" type of fire engine. It has a boiler-like apparatus with a suction fan attached to a huge hose, about 15 inches in diameter. The hose is run into smoke-filled rooms and the smoke is drawn out. It has proven especially successful in fighting stubborn basement blazes, where there is much smoke but little fire.

### Suffered For Three Long Years From His Kidneys

Saskatchewan Lady Tells How Dodd's Kidney Pills Helped Her Husband

Mrs. R. P. Romanyshyn Speaks Very Highly of Dodd's Kidney Pills. Portage la Prairie, Man. (Special)—Claiming that her husband has been relieved from backache and kidney trouble, Mrs. R. P. Romanyshyn, a resident of this place is enthusiastic about Dodd's Kidney Pills.

"I have found that Dodd's Kidney Pills are very helpful to my husband who has suffered for three years from his kidneys, and is feeling all right now. He tried many doctors and they did not do him any good. It is only Dodd's Kidney Pills that helped him. Dodd's Kidney Pills strengthen the kidneys and put them in shape to do their full work of straining the impurities out of the blood. With pure blood there is good health all over the body."

There is no reason why anyone should continue to suffer with Dodd's Kidney Pills can be obtained from druggists everywhere, or The Dodd's Medicine Co., Ltd., Toronto, Ont.

"Well, Algy, I hear you have taken up walking as the doctor ordered. How does it get?" "Seems a bit awkward at first without a wheelchair."

Protect the child from the ravages of worms by using "Mother Graves' Worm Expeller." It is a standard remedy, and years of use have enhanced its reputation.

Captain at Southampton (to Irishman applying for job on board ship)—Have you ever been at sea before? The Son of Erin—No you think I came over from Cleveland in a cab?

### Is It Your Nerves?

Woolweek, Ont.—"I have never found anything so good for the nerves as Dr. Pierce's Favorite Prescription. Several times in the past I have had spells of nervous prostration—my nerves would go to sleep. I became weak and weak, but Dr. Pierce's Favorite Prescription has always restored my strength. I have been so greatly benefited by taking the 'Prescription' that I now recommend it to all weak and nervous women."—Mrs. H. C. Argent, 616 Frances St.

Sold by dealers, in both fluid and tablet form; or send the free trial packet to Dr. Pierce's Laboratory in Bridgeport, Ontario.

### Mrs. H. C. Argent

Woolweek, Ont.—"I have never found anything so good for the nerves as Dr. Pierce's Favorite Prescription. Several times in the past I have had spells of nervous prostration—my nerves would go to sleep. I became weak and weak, but Dr. Pierce's Favorite Prescription has always restored my strength. I have been so greatly benefited by taking the 'Prescription' that I now recommend it to all weak and nervous women."—Mrs. H. C. Argent, 616 Frances St.

Sold by dealers, in both fluid and tablet form; or send the free trial packet to Dr. Pierce's Laboratory in Bridgeport, Ontario.

W. N. U. 1670

Aspirin is the trade mark registered in all countries for Bayer's Aspirin. The Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

## Here and There

At a meeting of the fox breeders of the Annapolis Valley, held at Middleton, it was stated that silver black foxes in captivity in the province number approximately 10,000 which, at a low valuation of \$200 each, makes a total value of \$2,000,000. The annual revenue to the ranchers is placed at \$800,000.

What is practically the first sheet copper mined, refined and rolled in Canada is now at Regina to go on the roof of the new Canadian Pacific Hotel there. As at Regina and at Banff, where magnificent new hotels are being erected by that Company, Canadian materials will be used in the building of the new Toronto hotel.

The population of the Prairie Provinces in 1926 was 2,067,632, according to the census taken in that year. This compares with 1,698,137 in 1916, and 808,846 in 1906. In the twenty year period Manitoba has increased its inhabitants from 305,688 to 630,056; Saskatchewan from 257,763 to 821,042, and Alberta from 185,105 to 607,534.

In view of pressure on the transportation facilities of the Canadian Pacific Railway when the full tide of immigration and harvest travel is felt in the coming summer and fall months, the railway has already taken steps to cope with this by sending 216 colonial cars for repair and overhauling to the Angus Shops, the work to be finished upon them not later than April 1st.

Professor W. L. Carlyle, manager of the Prince of Wales ranch, near High River, is en route to England where he will consult his royal employer regarding business matters pertaining to the ranch, purchase new stock and arrange for the usual year by year extension of the Prince's commercial activities in Alberta.

The presentation of 12 first aid awards to members of the Montreal terminals staff by A. D. MacTier, vice-president in charge of C.P.R. eastern lines recently, brings the total number of awards earned by Montreal employees of the Canadian Pacific during the past year up to 78. The number of employees passing the necessary yearly tests is increasing, over 700 employees at the Angus Shops alone now efficient in the work.

## Masquerade And Novelty Ball

## A Decided Success

One of the best dances for some time was that held on Friday night in the Chinook School. The affair was a Masquerade and Novelty ball, and with the beautifully decorated room and the fancy and comic costumes, the scene presented a very lively effect, stimulating lots of frolic and fun for the dancers. Those responsible for the decorating of the platform with its scenic effect are to be congratulated. Mrs. J. Rennie, Harry Smith and Robt. Morrison, the judges, found much difficulty in deciding upon the prize winners. Prize for the best dressed lady was awarded to Miss Margaret Bayley, dressed as "Lady Canada"; for the best dressed man, Duncan Roberts, as "Uncle Sam"; for best comic, Lowell Brownell as a "Two Faced Man." Miss Mary Clapham won the prize in the balloon dance.

The orchestra, who appeared as masked band-its in clown costumes, supplied excellent music, and the dancers were loud in their praises of the music rendered by these artists. This troupe of musicians will appear again under their new name at a later date. The following are the members of the orchestra: Mrs. C. Bray (violin), Wm. Hughes (violin), Mrs. W. Whelan (piano), Mrs. Steckle (banjo) Mrs. W. Hurley (mandoline), W. Steckle (banjo), Ed. Deman (drums).

Chinook Agricultural Society  
Directors Prepare For Fair

The Directors of the Chinook and District Agricultural Society are already preparing for the 1927 fair. A meeting of the directors was held last Saturday afternoon, and it was decided to make several improvements in the prize list this year, including better prizes for ladies work and children's competitions. A committee was appointed to revise the prize list, and the new features in the fair this year will be advertised at an early date in order that every one will have ample time to prepare their exhibits for the exhibition. During the meeting the President, R. Stewart, gave a report on the Alberta Fairs Association Convention.

## Sheep Industry

Many farmers in Alberta are now running small flocks of sheep on their farms. The fact that the day of the small farm flock has arrived, is indicated by the fact that the Southern Alberta Wool Growers' Association now has more than 350 members, in the place of some 60 members five years ago. There is plenty of room for expansion in the sheep industry on the basis of the small farm flock idea, however, for Canada, as yet, is producing less than 5,000,000 dollars' worth of wool, while it imports some 46,000,000 dollars' worth of woollen goods. Farmers who desire to start farm flocks are advised to write to the Alberta Department of Agriculture at Edmonton for pamphlets.

## Budget Balanced

The Alberta Government has balanced its accounts for the year 1926, with a small surplus, it was announced by Premier Brownlee to the Legislature last week. The surplus will not be as large as at first estimated, owing to the added costs of the general election. It is proposed to change the financial year of the Government to end March 31st.

## Forage Crop Train

Excellent meetings continue on the forage crop train now touring central Alberta. This week the train commenced its tour of C. N. R. lines, starting at Beiseker on March 1.

## Chinook School Literary Society

The Literary Society of the Chinook School held their meeting in the Assembly hall on Friday afternoon. The meeting was opened by singing "O Canada," after which the minutes of the previous meeting were read and adopted. The program consisted of the following: Song by six girls. An instrumental selection. Debate, the subject of which was "Resolved that Country Life is preferable to City Life." The affirmative was taken by May Todd and Vincent Rideout, while Dorothy Carter and Murdoch McPherson argued in favor of the negative. Both sides were so keenly contested that the judges had considerable difficulty in reaching a decision, but finally decided in favor of the negative side.

The program was closed by singing the national anthem.

## Amusement Tax

Over \$200,000 dollars was paid by the people of the province in the amusement tax during the past year; of this amount, the four cities paid something like \$156,000.

The gasoline tax brought \$423,700 during the year, a considerable increase over the previous year. The automobile licenses brought \$1,154,000, there being a total of 64,129 licenses, an increase of more than 11,000 over 1925.

## CONFEDERATION

## A Prize Essay Competition

The Provincial Chapter of the Imperial Order Daughters of the Empire announces an essay competition open to boys and girls attending the public and secondary schools in the Province of Alberta.

The competition for this essay on Confederation, marking its Diamond Jubilee, will be divided into two classes. The First Class Grades 9 and 10, the second class Grades 7 and 8. Three prizes will be given for each class consisting of \$25.00 for the best essay, \$15.00 for the second and \$10.00 for the third.

The following rules govern the competition:

1. In the First Class (Grades 9 and 10) the essay shall not be longer than 5,000 words and not shorter than 2,500; and in the second class (Grades 7 and 8) not longer than 4,500 and not shorter than 2,400.

2. The subject of the essay shall be "Confederation, its History and Effects on the development of Canada up to July 1, 1927."

3. The essays are to be clearly written on only one side of the paper with a margin of at least two inches. The name of the competitor is to be written at the end of the essay, with the name of his or her school and a statement that the essay is the unaided work of the competitor; also a statement from the teacher giving the Grade of the Competitor.

4. In judging the essays, manner as well as matter, will be considered; the essays must be grammatically constructed, correctly punctuated and written in clear and simple English.

5. The essays are to be sent, not later than April 30, 1927, to the Provincial Secretary, Mrs. J. C. Noel, 816-4th Ave. West, Calgary, Alberta.

A Creamery's Greatest Assets  
Are Its Cream Patrons

Many features about the Creamery business are very important. It is necessary to have good equipment and efficient employees, plus a good market for the finished product.

More important than all these, however, are our Cream Patrons. We have to depend on You Mr. Cream Shipper, for our cream. To: great extent the quality of our products depends on the quality of the Cream You produce, and the care You take of it.

We want Cream, more Cream, and better Cream, if possible in return for which you can absolutely count on best grade, service and price when you ship your cream to—

An  
Outstanding  
Ford  
ImprovementThe Hot Plate  
VAPORIZER

## Now Standard Equipment

The Ford Hot Plate Vaporizer is the most advanced improvement on the Ford engine in the last nineteen years. It produces a perfect fuel mixture which burns to the last atom because it is completely vaporized.

The Ford Hot Plate Vaporizer  
Gives these Advantages

- 1 Gasoline burns more readily and completely.
- 2 More even distribution of fuel to the cylinders affords smoother performance.
- 3 Crank case dilution is eliminated.
- 4 Better cold weather performance and easier starting.
- 5 Even when low grade fuel is burned a remarkable improvement is obtained in engine performance.
- 6 Greater power and more mileage per gallon.
- 7 One setting of carburetor is sufficient for all weather and driving conditions.
- 8 Greater flexibility, particularly at low engine speeds.

[IMPORTANT: Present owners of Ford cars and trucks can have the Ford Hot Plate Vaporizer installed by their Authorized Ford Dealer.]
